

Lynn Beasley has been with the Environmental Protection Agency for over 28 years. She began her career in the Office of Water working on effluent guidelines. From there she moved to the Office of Contracts and Procurement and ultimately to the Office of Solid Waste and Emergency Response. In her current position within OSWER Lynn is responsible for CERCLA section 103 reportable quantities and EPCRA section 304 notifications, and is the staff lead for the Oil Response Policy and Funding workgroup that coordinates with the National Pollution Funds Center in the U.S. Coast Guard. Lynn received her B.A. in Chemistry from Hood College and J.D. from the Columbus School of Law, Catholic University.
